Total lab confirmed cases and currently active cases for each county. Active numbers include probable cases. Source WDH

COVID-19 SYMPTOMS

People with COVID-19 have had a wide range of symptoms reported – ranging from mild symptoms to severe illness. Symptoms may appear 2-14 days after exposure to the virus. People with these symptoms may have COVID-19:

- Cough
- Shortness of breath or difficulty breathing
- Fever
- Chills
- Muscle pain
- Sore throat
- New loss of taste or smell

This list is not all possible symptoms. Other less common symptoms have been reported, including gastrointestinal symptoms like nausea, vomiting, or diarrhea. If you have symptoms, please contact your healthcare provider and GET TESTED!

Help Protect Yourself and Others from COVID-19

Practice Social Distancing

Stay 6 feet (2 arm's lengths) from other people.

And Wear a Cloth Face Covering

Be sure it covers your nose and mouth to help protect others. You could be infected and not have symptoms.
