COVID-19 SYMPTOMS

People with COVID-19 have had a wide range of symptoms reported – ranging from mild symptoms to severe illness. Symptoms may appear 2-14 days after exposure to the virus. People with these symptoms may have COVID-19:

- Cough
- Shortness of breath or difficulty breathing
- Fever
- Chills
- Muscle pain
- Sore throat
- New loss of taste or smell

This list is not all possible symptoms. Other less common symptoms have been reported, including gastrointestinal symptoms like nausea, vomiting, or diarrhea. If you have symptoms, please contact your healthcare provider and GET TESTED!

KEEP YOUTH ATHLETES SAFE Reduce the Spread of COVID-19 in Youth Sports

Reduce physical closeness between players when possible

- Allow players to focus on building individual skills, like batting, dribbling, kicking, and strength training
- Limit full contact between players to game days (avoid during practice)
- Increase space between players in the practice areas, including on the sideline, dugout, and bench
- Avoid high fives, handshakes, fist bumps or hugs

Minimize sharing of equipment or gear

- Encourage players to bring their own equipment, like gloves, balls, and helmets (if possible)
- Clean and disinfect shared items between use

Limit travel outside of your area

- Consider competing against teams in your local area (neighborhood, town, or community)

Identify small groups and keep them together

- Avoid mixing between groups
- Stagger the arrival and drop off of each group to limit interaction
- Have scrimmages within team to limit exposure

Implement plans to **space out spectators by 6 feet** at games or competitions. Limit nonessential visitors, spectators, and volunteers.

Lower Risk

Higher risk

Skill-building drills at home

Within-team competition

Full competition from different areas
